FinnMETKO 2020 exhibition stand prices and descriptions

Exhibition stand hire prices are given without VAT. VAT will be added to all prices at the valid rate. **An additional, registered and organiser-approved exhibitor participating at the same stand as another exhibitor will be charged an exhibition fee of 25% of the stand price. However, this charge will not exceed €1400, or €1500 from 1.6.2020.**

Stand locations are shown on a separate map of the exhibition area. There are exceptions concerning scale on some areas of the map, with e.g. some journeys and stand sizes not to true scale. As such, stand sizes are not to scale with respect to one another.

Outdoor stands are available for hire in squares of certain sizes. Stand shapes that deviate from the standard squares and sizes on the map should be agreed on with a representative of the exhibition organiser. It is possible to combine adjacent stands.

Work site safety

Finnmetko Oy requires everyone working and building stands in the exhibition area to hold an official site identification card. People pitching in on a voluntary basis do not require a card.

Tent contract suppliers

Finnmetko Oy's contract supplier is Stopteltat Oy in Orimattila. For other suppliers, Finnmetko Oy will charge €100–400 per tent as a safety and information charge.

Exhibitor service traffic and parking:

Service traffic to stands is permitted to exhibitor card holders outside of exhibition hours. **No separate service traffic cards will be distributed for service traffic.** There are also designated parking spaces for exhibitors near the main gate to the main exhibition area (see map) and next to the demonstration area (see map). **Service traffic is permitted in the mornings from 6.30am–8.00am and in the evenings from 6.00pm–8.00pm. Vehicles must exit the exhibition area before 8.00am. No service traffic to stands is permitted when the exhibition is open, from 9.00am–5.00pm.** All vehicle traffic (including mopeds and quadbikes) is absolutely prohibited during the exhibition for public safety reasons.

Indoor stands

The FinnMETKO hall (stands 330–499)

It is forbidden to make holes in hall stands and in stands surfaced with asphalt.

Indoor stands are located in a lit hall. The price of a stand covers basic wall structures, including a 2.5-metre-tall exhibition wall, a crossbeam with text, and the required support elements. Exhibition stands are built by KOKO Lahti Oy / Lahden Messut. Lahden Messut offers exhibitors an indoor stand construction service and hires out additional structures and furnishings.

Services and structures for stands can be ordered throughout the exhibition area. The relevant order form can be found on the website www.lahdenmessut.fi and will be posted to parties that have reserved a place in the hall at a later date.

The basic structural plans and sizes of indoor stands are shown on the map.

Outdoor stands:

Sand field (stands 100–189)

The sand field is covered with sand/gravel. Stand sizes are shown on the map.

Heath forest (stands 200–299)

The heath forest is dry heath forest from which all trees and tree stumps have been removed. Digging is prohibited at stands.

Stand sizes are shown on the map.

Ball field (stands 300–329)

The ball field is a hard and even field covered with crushed gravel. The field is 90m x 60m in size. It is suitable for exhibiting utility vehicles, passenger vehicles, trailer vehicles, and wheel and oil products. Damaging the surface of the area is prohibited. Stand sizes can be seen on the map. **Tents must be supported with weights.**

Park forest (stands 500–655)

Forested, rugged park, no demonstrations.

The ground is rather even heath, with rugged pine trees. **Ensure in advance that any tent you own or have ordered fits in the area.**

The average distance between trees is 4-5m. Park forest stand sizes are shown on the map.

Asphalt fields 1 and 2 (stands 700–714, 726-799)

Even asphalt fields. The stands are suitable for exhibiting property maintenance machinery and e.g. equipment and oil products. **Forest machinery is stored in part of the area, so some traces of oil are present and there is an incline. It is forbidden to make holes in stands surfaced with asphalt.**

Demonstration area, incl. earthmoving machinery, bioenergy equipment and forest machinery (stands 862–945)

500 metres from the main exhibition area asphalt fields there is a 7.5-hectare gravel area where it is possible to use all earthmoving and energy industry machinery and devices, from excavators and dumpers to crushing and chipping equipment. There are basic exhibition services in the area. The area has its own entrance and car park. Stands can be combined. Stand sizes are shown on the map.

There is free bus transportation between demonstration areas.
